LA CERAMICA DINAMICA | DYNAMIC CERAMIC

Pappagalli e farfalle prendono il volo, spostandosi nella loro madre forma. Nasce la ceramica dinamica, la ceramica che diventa un gioco per rinnovare il pezzo e la sua immagine. Una tecnica innovativa con l'applicazione del magnete che permette così agli elementi di spostarsi, di muoversi, di scambiarsi.

Parrots and butterflies take flight, moving in their mother form. The dynamic ceramic is born, the same ceramic that becomes a game to renew the piece and its image. An innovative technique with a magnet application that allows elements to move, to exchange.
